

Field Trip: UCBG

Review the lab and answer the following questions:

1. What is the UCBG and where is it located?

2. How much will it cost you to enter the UCBG?

3. What **four** pieces of information will you be required to record for each of the plants you sketch?

4. Observe the map of the UCBG and describe how the plants in the UCBG are organized?

5. Observe the Plant Hunting List included in your lab. List one example for each of the following categories:
 - a. Ferns, horsetails, etc. _____
 - b. Gymnosperms _____
 - c. Angiosperms _____
