

## Biology 250

An Introduction to Human  
Anatomy

### Instructors

- ♦ Carlene Tonini-Boutacoff
- ♦ Tuesday lecture and Wednesday lab
- ♦ [tonini@smccd.edu](mailto:tonini@smccd.edu)
- ♦ 650-574-6250
- ♦ 36-205D-2nd floor, Biology office cluster

### Instructors

- ♦ Krista Granieri-Mon eve. Lab.
- ♦ Theresa Martin-Day anatomy
- ♦ Dr. LK-day anatomy
- ♦ See our department website at
- ♦ <http://www.smccd.edu/accounts/csm/mathscience/biology/>

---

---

---

---

---

---

---

### Who takes this course?

- ◆ Prenursing (RN, LVN, NP)
- ◆ Physical Therapy
- ◆ Other Allied Health Fields
- ◆ Biology majors
- ◆ Personal interest

---

---

---

---

---

---

---

### What will I learn?

- ◆ Review basic biological and chemical concepts that are essential to understanding the structure and function of the body.

---

---

---

---

---

---

---

### More to learn...

- ♦ Basic structure of each body system
- ♦ Complimentarity of structure and function.

---

---

---

---

---

---

---

---

### More to Learn!!!

- ♦ become aware of academic resources that are available to continue your learning beyond this course.

---

---

---

---

---

---

---

---

### How do I pass this course?

- ♦ Attend class and laboratory hours.
- ♦ Keep up on reading assignments.
- ♦ Complete assignments on time.
- ♦ Successfully complete all quizzes and exams.

---

---

---

---

---

---

---

---

How do I pass this course?

- ♦ Form study groups
- ♦ Attend open lab hours
- ♦ Live the course!!!
